SHARP

<u>Data Revised : Apr 25, 2002</u> Date Issued : Feb. 1, 1998

MATERIAL SAFETY DATA SHEET (1/2)

MSDS No. F-00791

Section 1. Product Identification

Product:

AR-330NT / AR-330ST / AR-330T (Black Toner)

Section 2. Supplier's Name and Address

Sharp Corporation

22-22 Nagaike-cho, Abeno-ku, Osaka, Japan

Local suppliers are listed below. Please contact the nearest supplier for additional information.

(Country)	(Name and Telephone Number)					
U.S.A.	Sharp Electronics Corporation Telephone number for information: 1-800-237-4277					
	Emergency telephone number : 1-800-255-3924					
Canada	Sharp Electronics of Canada Ltd.					
	Telephone number for information: 905-890-2100					
	Emergency telephone number : 1-800-255-3924					
United	Sharp Electronics (U.K.) Ltd.					
Kingdom	Telephone number for information: 01923-474013					

Section 3. Ingredients

<u>Ingredients</u>	CAS No.	Proportion	OSHA PEL	ACGIH TLV	Other Limits
Carbon black	1333-86-4	<4%	3.5mg/m ³	3.5mg/m ³	None
Graft polymer(poly	ester, 149367-99-7	<55%	Not listed	Not listed	None
styrene-ac	rylate)				
Polyester resin 1	(NJ TSRN 80100252-5009P)	<20%	Not listed	Not listed	None
Polyester resin 2	116736-81-3	<20%	Not listed	Not listed	None
Pigment	31714-55-3	<1%	Not listed	Not listed	None
Wax 1	9010-79-1	<2%	Not listed	Not listed	None
Wax 2	8015-86-9	<2%	Not listed	Not listed	None
Silica	68909-20-6	<1%	15mg/m ³	10mg/m ³	None

Section 4. Hazardous Identification (Emergency Overview)

Toner is a fine, black powder possessing no immediate hazard. There are no anticipated carcinogenic effects from exposure based on animal tests performed using toner. When used as intended according to instructions, studies do not indicate any symptoms of fibrosis will occur.

Section 5. Health Hazard Data

Route(s) of Entry: <u>Inhalation?</u> <u>Skin?</u> <u>Ingestion?</u>

Yes No Possible but very unusual.

Health Hazards : Acute toxicity --- LD50 > 5000mg/kg LC50 > 6.42mg/L·4Hrs.

Mutagenicity(Ames test) --- Negative(S.typhimurium, Escherichia coli).

(These are toxicity data of similar material.)

Carcinogenicity: In 1996 the IARC reevaluated carbon black as a Group 2B carcinogen (possible human

carcinogen). This classification is given to chemicals for which there is inadequate human evidence, but sufficient animal evidence on which to base an opinion of carcinogenicity. The classification is based upon the development of lung tumors in rats receiving chronic inhalation exposures to free carbon black at levels that induce particle overload of the lung. Studies performed in animal models other than rats did not show any association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation containing carbon black demonstrated no association between toner exposure and tumor

development in rats.

Chronic Effect: In a study in rats of chronic inhalation exposure to a typical toner, a mild to moderate degree of

lung fibrosis was observed in 92% of the rats in the high concentration (16mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4mg/m³) exposure group, but no pulmonary change was reported in the lowest (1mg/m³)

exposure group, the most relevant level to potential human exposures.

Signs and Symptoms of Exposure : Minimal irritation to respiratory tract may occur as with exposure to any

non-toxic dust.

Medical Conditions Generally Aggravated by Exposure : None

SHARP

Data Revised: Apr 12, 2000 Date Issued: Feb. 1, 1998

MATERIAL SAFETY DATA SHEET (2/2)

MSDS No. F-00791

Section 5. Health Hazard Data (Continued)

Emergency and First Aid Procedures :

Inhalation; Remove to fresh air. If effects occur, consult medical personnel. Eye; In case of contact, immediately flush eyes with water for 15 minutes.

Section 6. Physical Chemical Characteristics

Boiling / Melting Point : Not applicable Specific Gravity : 1.2

Vapor Pressure: Not applicableSolubility in Water: NegligibleVapor Density: Not applicablePH: Not applicableEvaporation Rate: Not applicableViscosity: Not applicable

Appearance : Fine powder Color : Black

Odor : Odorless

Section 7. Fire and Explosion Data

Flash Point (Method Used) : Not applicable Ignition Temperature : Not applicable

Flammable Limits : (LEL); Not known (UEL); Not known

Extinguishing Media : CO₂ dry chemical, foam or water

Special Fire Fighting Procedure : None

Unusual Fire and Explosion Hazard : This material has no unusual fire or explosion hazards.

Sensitivity to Mechanical Impact : None Sensitivity to Static Charge : None

Section 8. Reactivity Data

Stability : Stable

Incompatibility (Material to Avoid) : Strong acid or alkaline

Hazardous Decomposition : Phenol derivatives, Carbon monoxide when heated at high

Temperature. (>300°C)

Hazardous Polymerization : Will not occur.

Section 9. Precautions for Safe Handling and Use

Personal Protection Information (Respiratory, Eye Protection and Protective Glove):

Use of a dust mask is recommended when handling a large quantity of toner or during long term exposure, as

with any non-toxic dust.

Engineering Control / Ventilation : Not required.

Work / Hygienic Practice : Inhalation should be minimized as with any non-toxic dust.

Steps to be taken in case of Spill or Leak: Sweep up or clean up with vacuum cleaner.

Waste Disposal Method : Waste material may be dumped or incinerated under conditions that

meet all federal, state and local environmental regulations.

Section 10. Regulatory Information

NFPA Rating (U.S.A.) : Health = 1 Flammability = 1 Reactivity = 0

WHMIS Legislation (Canada) : This product is not a controlled product.

Transport Information : This product is not a hazardous material.

UN No. : None allocated.
